Councilmember Yvonne Knaack - City of Glendale, Barrel District

## Arbor Day 2011

Councilmember Knaack attended the city of Glendale's Arbor Day event held on Thursday, April 21 at Desert Garden Park - 71st Avenue and Ocotillo Rd.

Students from the nearby Desert Garden Elementary School participated by reading essays they had prepared about trees. The theme of the event was "Trees are Terrific – and Grow a Strong Community".

Special thanks to the Glendale Woman's Club and Glendale Garden Club, who provided refreshments and trees for the event.

Two trees were planted at the park.

**Volunteers Make Glendale a Better Community.** You'll feel better. Just ask the more than 3,500 people who volunteer their time and talents to make Glendale a better community.

While they donate their time for free, they also get something in return – the satisfaction of knowing they make a difference. It's that difference that gets celebrated each April during National Volunteer Month. And in Glendale, there's a lot to celebrate!

Last year, volunteers provided 120,744 hours of service, which, if paid, would be valued at \$2.5 million. That tradition continues in more than 20 departments across the city this year.

Volunteers with the city fall into one of two categories: the Glendale STAR Program for ongoing volunteer assignments, and the Glendale Community Volunteer Program that's geared toward groups doing specific short-term projects.

The second category was created as a one-year pilot in 1998. It became a Best of the West award winner and continues today.

Across the city, there are volunteer opportunities that tap into a variety of skills such as tutoring, causes such as feeding the hungry, and interest areas such as gardening.

**Utility Deposits.** For the first time in 19 years, the city of Glendale has made an adjustment to its deposit for water, sewer and sanitation accounts. The deposit increase only applies to new utility accounts.

For residential property owners and renters, the deposit amount is now \$200. For commercial customers, the deposit ranges from \$250 to \$300, depending on the meter size. This amount is approximately two months of water, sewer and sanitation bills paid by the average customer. Accounts that become delinquent and require shut-off typically have about two months of unpaid utility charges; therefore, this deposit would assist in recovering a portion, if not all, of any unpaid charges as well as the staff costs associated with turning off delinquent accounts.

Along with the adjustment to the deposit, Glendale has changed the administrative procedure pertaining to deposits. Utility services can now be contracted with renters. Renters must supply the city with a lease agreement and deposit before an account will be opened. Contracting services with the renter ensures that all charges remain the responsibility of the renter, not the property owner.
